Environmental Biology of Fishes

CONTENTS Vol. 32, Nos. 1–4 1991

THE BIOLOGY OF *Latimeria chalumnae* AND EVOLUTION OF COELACANTHS
Editors: John A. Musick, Michael N. Bruton & Eugene K. Balon

Prelude: the mystery of a persistent life form, by E.K. Balon 9
Introduction the recent chronology and contributions, by J.A. Musick, M.N. Bruton & E.K. Balon 15

Systematics and evolution
Patterns, trends, and rates of evolution within the Actinistia, by R. Cloutier 23
Diversity of extinct and living actinistian fishes (Sarcopterygii), by R. Cloutier & P.L. Forey 59
Latimeria chalumnae and its pedigree, by P.L. Forey 75
A phylogenetic analysis of the 18S ribosomal RNA sequence of the coelacanth *Latimeria chalumnae*, by D.W. Stock, K.D. Moberg, L.R. Maxson & G.S. Whitt 99
The relationships of the coelacanth *Latimeria chalumnae*: evidence from sequences of vertebrate 28S ribosomal RNA genes, by D.M. Hillis, M.T. Dixon & L.K. Ammerman 119
Central nervous system myelin proteins of the coelacanth *Latimeria chalumnae*: phylogenetic implications, by T.V. Waehneldt, J. Malotka, G. Jeserich & J.-M. Matthieu 131

Morphology and physiology
Innervation of the basicranial muscle of *Latimeria chalumnae*, by W.E. Bemis & R.G. Northcutt 147
Computed Tomography and Magnetic Resonance Imaging studies of *Latimeria chalumnae*, by H.-P. Schultze & R. Cloutier 159
CT scan reconstruction of the palate region of *Latimeria chalumnae*, by H.-P. Schultze 183
Enzymes of the coelacanth *Latimeria chalumnae* evidenced by starch gel electrophoresis, by A.L. Setter & G.W. Brown, Jr. 193
Guppies, toadfish, lungfish, coelacanths and frogs: a scenario for the evolution of urea retention in fishes, by R.W. Griffith 199
Urea and chloride sensitivities of coelacanth hemoglobin, by C.P. Mangum 219

Reproduction, feeding and parasites
Viviparity and the maternal-embryonic relationship in the coelacanth, *Latimeria chalumnae*, by J.P. Wourms, J.W. Atz & M.D. Stribling 225
Probable evolution of the coelacanth's reproductive style: lecithotrophy and orally feeding embryos in cichlid fishes and in *Latimeria chalumnae*, by E.K. Balon 249
Observations on locomotion and feeding of released coelacanths, *Latimeria chalumnae*, by T. Uyeno 267
Stomach contents of *Latimeria chalumnae* and further notes on its feeding habits, by T. Uyeno & T. Tsutsumi 275
Juvenile anisakine parasites form the coelacanth *Latimeria chalumnae*, by D.A. Thoney & W.J. Hargis, Jr. 281

Ecology and conservation

Habitat and population size of the coelacanth *Latimeria chalumnae* at Grand Comoro, by H. Fricke, K. Hissmann, J. Schauer, O. Reinicke, L. Kasang & R. Plante 287
The demography of the coelacanth *Latimeria chalumnae*, by M.N. Bruton & M.J. Armstrong 301
The ecology and conservation of the coelacanth *Latimeria chalumnae*, by M.N. Bruton & R.E. Stobbs 313
The fishery of the Comoros, with comments on its possible impact on coelacanth survival, by R.E. Stobbs & M.N. Bruton 341
Occurrence of organochlorine contaminants in tissues of the coelacanth *Latimeria chalumnae*, by R.C. Hale, J. Greaves, J.L. Gundersen & R.F. Mothershead II 361

Inventory and bibliography

An inventory of all known specimens of the coelacanth *Latimeria chalumnae*, with comments on trends in the catches, by M.N. Bruton & S.E. Coutouvidis 371
Literature relating to fossil coelacanths, by P.L. Forey & R. Cloutier 391
Bibliography of the living coelacanth *Latimeria chalumnae*, with comments on publication trends, by M.N. Bruton, S.E. Coutouvidis & J. Pote 403

Fish imagery in art 12: Leland Miyano's Latimeria, *by E.K. Balon* 435

Authors' index 436

Instructions to authors 437

Photocopying. *In the U.S.A.*: This journal is registered at the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970.
Authorisation to photocopy items for internal or personal use, or the internal or personal use of specific clients is granted by Kluwer Academic Publishers for users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $ 1.00 per copy plus $ 0.15 per page per copy is paid directly to CCC. For those organisations that have been granted a photocopy licence by CCC, a separate system of payment has been arranged. The fee code for users of the Transactional Reporting Service is 0378–1909/91$ 1.00 + 0.15.
Authorisation does not extend to other kinds of copying, such as that for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale.
In the rest of the world: Permission to photocopy must be obtained from the copyright owner. Please apply to Kluwer Academic Publishers, P.O. Box 17, 3300 AA Dordrecht, the Netherlands.

Environmental Biology of Fishes is published monthly.
Subscription prices, per volume: Institutions $218.00.
Second-class postage paid at Rahway, N.J. USPS No. 568–390.
U.S. Mailing Agent: Expediters of the Printed Word Ltd., 2323 Randolph Ave., Avenel, NJ 07001.
Published by Kluwer Academic Publishers, Spuiboulevard 50, P.O. Box 17, 3300 AA Dordrecht, The Netherlands, and 101 Philip Drive, Norwell, MA 02061, U.S.A.
Postmaster: Please send all address corrections to: *Environmental Biology of Fishes*, c/o Expediters of the Printed Word Ltd., 2323 Randolph Ave., Avenel, NJ 07001, U.S.A.
